DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-15 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Lebsack et al '907.

Lebsack et al teach a machine for filling meat emulsion into elongated natural or artificial casings. A casing filling station includes a stuffing tube, a casing hopper to serve as a reservoir and means on the machine for moving the casing hopper away from its position adjacent the casing filling station when natural casings are placed on a stuffing tube in the casing filling station. Regarding claims 11 and 12, the apparatus of Lebsack et al includes a means for pivoting the casing hopper away from the casing filling station, raising and lowering the casing hopper away from the casing filling station. As for claim 13, the stuffing tube is longitudinally movably mounted on the machine. Regarding claim 15, at least one sensor is located in the machine to detect when the casing hopper is in its position adjacent the casing filling station.

Claim Rejections - 35 USC § 112

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 21, line 3, "1800" needs correction.

Allowable Subject Matter

Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
